OBJECTIVE

As a dedicated and enthusiastic Full Stack Developer, I aspire to leverage my skills in front-end and back-end development to contribute effectively to dynamic projects. With a strong foundation in programming languages, frameworks, and an eagerness to learn emerging technologies, I am committed to delivering high-quality solutions that meet user needs and exceed expectations. Seeking a challenging opportunity where I can apply my knowledge, collaborate with talented teams, and continuously grow as a professional in the field of software development.

EDUCATION

Bachelor of Computer Science And Engineering, Visvesvaraya Technological University.   2022

SKILLS

Technical Skills	HTML5, CSS3, JavaScript, React, Redux Toolkit, SQL, Node, Express, Neo4j.
Tools	Git/GitHub, VS Code, Shadcn.
Soft Skills	Communication, Leadership, Teamwork, Emotional intelligence, Openness to feedback.

PROJECTS

Academic : E-commerce Platform for Food Enthusiasts. Designed and developed an immersive e-commerce platform catering to food enthusiasts. Leveraged HTML, CSS, JavaScript, ReactJS, MySQL, and Java to create a seamless interface offering diverse culinary delights. Features include detailed product descriptions, tempting visuals, user reviews, personalized recommendations, and intuitive search. Enhanced user experience with a user-friendly checkout process. This project underscored expertise in e-commerce development and user-centered design principles, emphasizing the passion for creating impactful digital experiences.

Currency Converter. Built a real-time currency converter web app using HTML, CSS, and JavaScript. Integrated API for live conversion rates across multiple currencies. Demonstrated front-end skills and user-friendly design. (Try it here)

Google Search Engine Replica. Developed a simplified Google search engine replica using HTML, CSS, JavaScript, and the Google Custom Search JSON API. (Try it here)

Task Manager. Developed a web-based task manager using React.js, Node.js, and MongoDB. Implemented features for task management, including add, edit, and delete functionalities. Utilized Redux for state management and ensured a responsive design. Demonstrated proficiency in full-stack development and collaboration.

CERTIFICATES

- Internship on "Full-Stack Development with MERN Stack" in Tech fortune technologies.   07/2021 - 10/2021.
- Attended "IOT" Workshop and Virtual Reality held at our Rural Engineering College.   04/2019 - 04/2019.
- MERN Stack Development. (Besant Technologies)   06/2023 - 12/2023.

ACHIEVEMENTS

- Attended "Makers Makeathon" in Hubli in Makers Lab's Makeathon held at Sandbox StartUps Makers Lab.
- Admin for the Attended "TCS TECH BYTES" organized by the Board for IT Education Standards (BITES) and Tata Consultancy Services in 2019 Statewide Engineering IT Quiz.
